DETAILED ACTION

1. This action is in response to applicant's response filed on Oct. 26, 2006. **Claims 4-5** are pending in the present application.

2. **EXAMINER'S AMENDMENT/COMMENT**

Applicant has agreed to the following amendment during his telephonic interview with the Examiner held on Nov. 16, 2006:

In the specification, Page 2, line # 2, change "xcessive" ----excessive ----

The Interview summary is enclosed.

REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance:

Independent claim 4 recites a telephone terminal equipment interface circuit and limitations for the following: "a forward biasing circuit located on an output side of a diode bridge for supplying forward biased voltage to the diode bridge; and a power supply circuit supplying power to the forward biasing circuit; wherein the forward biasing circuit is connected in series in relation to the diode bridge, wherein current-voltage characteristics of the telephone terminal equipment interface circuit are such that both the current and the voltage increase in linear proportion from a starting point".

The prior art of record does not teach these limitations.

New search updates revealed no other prior art which teaches the limitations in the context of the claims. Therefore, claims 4-5 are indicated allowable.

4. The claims have been re-numbered as follows:

CLAIMS NUMBER (ORIGINAL)	CLAIMS NUMBER (FINAL)
4-5	1-2

Claim no. 4 along with figure number 1 will be published in the Official Gazette.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
